The Federal Circuit has held that an invention is anticipated only if all elements of the claimed invention are present in a product or process disclosed, expressly or inherently, in a single prior art reference (RCA Corp. v. Applied Digital Data Sys., Inc., 730 F.2d 1440, 221 USPQ 385, 388 (Fed. Cir. 1984), *cert. dismissed sub nom.* Hazeltine Corp. v. RCA Corp., 468 U.S. 1228).

None of these references teach a liner for a footbath as claimed. Accordingly, the rejection is improper and applicants request withdrawal of the rejection.

The Examiner rejected claims 3-4 and 6 under 103a.

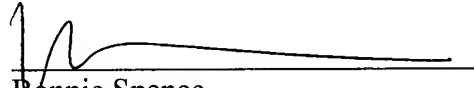

Applicants respectfully disagree. However, in order to further prosecution of the subject application, claims 3-6 have been canceled. Accordingly, the rejection is moot.
